Sample JackTech business intelligence report

BUSINESS INTELLIGENCE

- Tableau Suite and Power BI experts
- Interactive capabilities for drill-down analysis
- Real-time or scheduled data updates
- Performance optimization
- Adjustable data security features
- Share reports in a secure, interactive format or via PDF, CSV, PowerPoint, and/or image exports
- Custom alerts, notifications, and subscriptions
- Visual analytics best practices
- Streamlined and standardized processes, procedures, and documentation

BIG DATA ANALYTICS

- Descriptive, predictive, and prescriptive analytics
- Emphasis on data integrity and accuracy
- Comprehensive data governance, security, and privacy policies
- Advanced machine learning, AI, and modeling
- Performance optimization
- Accurate statistical interpretations and predictions
- Fully integrated embedded analytics
- Up-to-date best practices and technology

DATA SCIENCE

- Detailed domain research, data mining, and pre-processing
- Superior feature engineering and models (supervised and unsupervised)
- Accurate statistical analysis
- Appropriate model evaluation

DATABASE ADMINISTRATION

- Designed with comprehensive stakeholder perspectives to optimize usability
- Created with physical and intangible database security considerations
- Ability to integrate with existing or new environments
- Flexible scalability to quickly provision resources
- Optimized structure to decrease costs and increase effectiveness
- Comprehensive hosting considerations
- Custom update and upgrade features

INFORMATION TECHNOLOGY & OTHER SERVICES

Customized for your needs

DATA GOVERNANCE

- Prioritization of business understanding and defining objectives
- Detailed and comprehensive lineage tracking and documentation
- Organized metadata management
- Customized strategy, security, process, and communication plans
- Emphasis on ownership and responsibility
- Standardized policies and regulations
- Rigorous training development and execution for data users

CYBERSECURITY

- Comprehensive risk identification, assessment, and incident response plans
- Detailed and comprehensive documentation
- Rigorous and thorough training plans
- Immediate responses and 24/7 risk monitoring
- Frequent security audits and penetration testing
- Up-to-date technology and security enhancement packages
- Comprehensive risk reporting, automatic alerts, and notifications
- Industry specific security tailoring

ACCOUNTING & FINANCE

- Reporting with ethics and integrity
- Advanced forecasting and analysis
- Emphasis on accuracy and precision
- Up-to-date best practices and technology
- Organized documentation and processes
- Team with a sense of accountability
- Detailed and thorough documentation
- Industry specific knowledge
- Creative problem solving and critical thinking

CENTER OF EXCELLENCES

- Rated as providing some of the best customer service for previous clients
- Agile and traditional project management
- Efficient prioritization and task triage to identify and remedy bottlenecks
- Exceptional interpersonal skills
- Standardized and streamlined processes
- Detailed and thorough documentation
- Hands-on, custom-tailored training
- Up-to-date best practices
